Overview

This document provides a comprehensive set of manual test cases for the Handwriting Academy Management System. The application supports six user roles: Super Admin, Admin, Teacher, Student, Parent, and Support. Each section below covers role-specific functionality with step-by-step testing instructions.

Testing Environment: Use the preview/staging URL provided. Test with the demo accounts or create new accounts as needed.

Status Legend: PASS = Working as expected | FAIL = Defect found | BLOCKED = Cannot test | N/A = Not applicable

1. Landing Page & Public Access

Test cases for the public-facing landing page before login.

#	Test Case	Steps	Expected Result	Status
1.1	Landing page loads	Open the application URL	Landing page with hero, courses carousel, features displayed	
1.2	Online/Offline course filter	Click Online/Offline tabs on course carousel	Courses filter by delivery mode correctly	
1.3	Course carousel mobile touch	On mobile, swipe course carousel left/right	Carousel scrolls smoothly with touch; pause on touch	
1.4	Add to cart with batch selection	Click Add to Cart on a course	Batch picker dialog opens showing batches with seat availability	
1.5	Full batch cannot be selected	Try selecting a batch that is full (0 seats)	Batch appears greyed out; cannot proceed	
1.6	Cart checkout flow	Add course to cart, proceed to checkout	Checkout page shows selected course + batch details	
1.7	Coupon code application	Enter a valid coupon code at checkout	Discount applied; final amount reduced	
1.8	Signup from landing page	Click Sign Up button	Redirected	

			to signup page with form	
1.9	Login page	Navigate to /login	Login form displayed with email/pass word fields	
1.10	Forgot password	Click Forgot Password on login page	Password reset form appears; email sent on submit	

Notes: _____

2. Authentication & Authorization

Verify signup, login, password reset, and role-based access.

#	Test Case	Steps	Expected Result	Status
2.1	User signup	Fill signup form with valid details, submit	Account created; verification email sent	
2.2	Password strength meter	Type passwords of varying strength in signup	Strength meter updates (weak/fair/strong)	
2.3	Email verification	Click verification link in email	Account verified; can now log in	
2.4	User login	Enter valid credentials and submit	Logged in; redirected to role-specific dashboard	
2.5	Invalid login	Enter wrong password	Error message shown; login attempt logged	
2.6	Role-based dashboard	Login as each role (superadmin/admin/teacher/student/parent/support)	Each role sees their specific dashboard with relevant stats	
2.7	Protected route access	Try accessing /settings as a non-superadmin	Redirected to unauthorized page	
2.8	Sidebar navigation RBAC	Login as teacher; check sidebar menu	Only teacher-allowed menu items visible	
2.9	Password reset flow	Request reset, use link, set new password	Password updated; can login	

			with new password	
2.10	Profile page (all roles)	Navigate to /profile	Can edit display name and avatar	

Notes: _____

3. Super Admin Functions

Test cases specific to the Super Admin role.

#	Test Case	Steps	Expected Result	Status
3.1	Dashboard stats	Login as superadmin, view dashboard	Shows Total Users, Courses, Batches, Organizations, Leads, Payments	
3.2	Create organization	Go to Organizations > Create New	Organization created with name, slug, logo	
3.3	Create user	Go to Users > Add User with role assignment	User created with selected role	
3.4	Manage roles	Go to Roles & Permissions	Can view and manage role assignments	
3.5	Create course	Go to Courses > Add Course with all fields	Course created with name, fee, delivery mode, language, etc.	
3.6	Create batch	Go to Batches > Add Batch for a course	Batch created with max students, teacher assignment	
3.7	Edit batch	Click edit on existing batch, change details	Batch updated successfully	
3.8	Manage schedule	Go to Schedule > Create	Schedule	

		schedule entry	created for batch with day, time, room	
3.9	View activity logs	Go to Activity Logs	All system activities displayed with timestamps	
3.10	System monitoring	Go to System Monitoring	System health metrics displayed	
3.11	Subscription plans	Go to Subscriptions > Create plan	Plan created with price, limits, features	
3.12	Coupon management	Go to Coupons > Create coupon	Coupon created with discount type, limits, validity	
3.13	Payroll management	Go to Payroll	Can view and manage teacher payroll records	
3.14	Settings access	Go to Settings	Settings page accessible only to superadmin	
3.15	Curriculum management	Go to Curriculum > Add module/lesson	Modules and lessons created for courses	

Notes: _____

4. Admin Functions

Test cases for Admin role (organization-scoped).

#	Test Case	Steps	Expected Result	Status
4.1	Admin dashboard	Login as admin, view dashboard	Shows org-scoped stats: courses, batches, students	
4.2	Manage courses (org-scoped)	Go to Courses	Only organization courses visible	
4.3	Manage batches	Go to Batches	Can create/edit batches within organization	
4.4	Manage students	Go to Students	Student list for the organization	
4.5	Start class on behalf of teacher	Go to Live Classes > Start a scheduled class	Class started; teacher can join when available	
4.6	Reassign teacher	Click Reassign on a class > select new teacher	Teacher reassigned; notification sent	
4.7	Join ongoing class	Click Join on a live class as admin	Admin joins with teacher controls	
4.8	View reports	Go to Reports	Organization reports displayed	
4.9	Settings access	Go to Settings	Settings accessible for admin role	

Notes: _____

5. Teacher Functions

Test cases for the Teacher role.

#	Test Case	Steps	Expected Result	Status
5.1	Teacher dashboard	Login as teacher	Shows My Batches, My Students, Upcoming Classes, Pending Reviews	
5.2	View my batches	Go to Batches	Only assigned batches visible	
5.3	Take attendance	Go to Attendance > Select batch > Mark students	Attendance recorded (present/absent/late)	
5.4	Start live class	Go to Live Classes > Click Start on scheduled class	Class goes live; video classroom opens	
5.5	Teacher controls in class	During live class, use teacher controls	Can mute, share screen, manage participants	
5.6	End class with attendance	Click End Class	Attendance dialog shows; records saved	
5.7	Create practice assignment	Go to Practice > Create Assignment	Assignment created with title, description, due date	
5.8	Review student submissions	Go to Submissions > Open a submission	Can view submission, give score and feedback	
5.9	View student progress	Go to Students > View progress	Student progress details	

			displayed	
5.10	No settings access	Try navigating to /settings	Redirected to unauthorized page	

Notes: _____

6. Student Functions

Test cases for the Student role.

#	Test Case	Steps	Expected Result	Status
6.1	Student dashboard	Login as student	Shows enrolled courses, upcoming classes, recent grades	
6.2	View courses	Go to Courses	Enrolled courses with batch details visible	
6.3	Join & Wait for class	Go to Live Classes > Click Join & Wait on scheduled class	Waiting room UI: Waiting for teacher to start...	
6.4	Auto-connect when class starts	While in waiting room, teacher starts class	Automatic ally connects to video classroom	
6.5	Join live class	Click Join on a live class	Video classroom opens; student view (no teacher controls)	
6.6	No Start button visible	View Live Classes page	Only Join/Join & Wait buttons; no Start button	
6.7	Submit practice work	Go to Practice > Upload submission	File uploaded and submission recorded	
6.8	View my progress	Go to My Progress	Progress details with completion percentag	

			e	
6.9	View my orders	Go to My Orders	Order history with payment status	
6.10	Chat in classroom	During live class, use chat	Messages sent and received in real-time	

Notes: _____

7. Parent Functions

Test cases for the Parent role.

#	Test Case	Steps	Expected Result	Status
7.1	Parent dashboard	Login as parent	Shows linked children with their stats	
7.2	View my children	Go to My Children	List of linked children displayed	
7.3	Child progress tracking	Go to Child Progress	Progress details for each child	
7.4	View attendance	Go to Attendance	Attendance records for children	
7.5	View payments	Go to Payments	Payment history visible	
7.6	View orders	Go to My Orders	Order history for enrollments	

Notes: _____

8. Support Staff Functions

Test cases for the Support role.

#	Test Case	Steps	Expected Result	Status
8.1	Support dashboard	Login as support	Shows Total Leads, Enrollments, Open Payments	
8.2	Lead management	Go to Leads > Add/edit lead	Lead created with name, email, phone, status	
8.3	Lead status updates	Change lead status (new > contacted > qualified > converted)	Status updated; reflected in list	
8.4	Enrollment management	Go to Enrollments	Can view and manage student enrollments	
8.5	Student management	Go to Students	Student list with search/filter	
8.6	Payment tracking	Go to Payments	Payment records with status filters	

Notes: _____

9. Live Classes & Video

End-to-end testing of the video classroom system.

#	Test Case	Steps	Expected Result	Status
9.1	Schedule a live class	Admin/Teacher creates scheduled class for a batch	Class appears in schedule with scheduled status	
9.2	Student joins waiting room	Student clicks Join & Wait before class starts	Waiting room with spinner and message shown	
9.3	Teacher starts class	Teacher clicks Start on scheduled class	Status changes to live; video room connects	
9.4	Student auto-connects	Student was in waiting room when class started	Polling detects live status; auto-connects to video	
9.5	Admin starts on behalf	Admin starts class when teacher unavailable	Class starts; started_by shows admin name	
9.6	Teacher joins admin-started class	Teacher joins class that admin started	Teacher gets teacher controls in the classroom	
9.7	Reassign teacher mid-schedule	Admin reassigns teacher for a scheduled class	New teacher assigned; old teacher removed from batch	
9.8	Classroom chat	Send messages during live class	Messages appear in real-time	

			for all participant s	
9.9	End class with attendance	Teacher/Admin ends class	Attendanc e dialog appears; records saved; status = completed	
9.10	Multiple participants	3+ users join same class	All participant s visible; audio/vide o working	

Notes: _____

10. Batch & Seat Management

Verify seat limits and enrollment controls.

#	Test Case	Steps	Expected Result	Status
10.1	Batch shows seat count	View course with batches	Each batch shows enrolled/max_students	
10.2	Seat availability indicator	View batch with 80% capacity	Yellow progress bar indicating near-full	
10.3	Full batch blocked	Try enrolling in a full batch (max reached)	Enrollment blocked; Full badge shown	
10.4	Batch picker on cart	Add course to cart from landing page	Dialog shows batches with available seats only	
10.5	Backend seat enforcement	API call to add student to full batch	Server rejects with capacity error	

Notes: _____

11. Test Execution Summary

Fill this section after completing all test cases.
